SOUTHAMPTON, L. I. May 27.—
After struggling to the water for more than two hours climping to these days of critical choice and ac-

tion until we have done our duty to the full. These are days when duty stands stark and naked, and even with closed eyes we know it is there. Excuses are unavailing. We have either done our duty or we have not. The fact will be as gross and plain as the duty itself.

'In such a case lassitude and fatigue seem negligible enough. The facts are tonic and suffice to freshen

\$4.000,000,000 IN TAXES NOT ENOUGH, HE SAYS.

"And the facts are these: Additonal revenues must manifestly be provided for. It would be a most insound policy to raise too large a proportion of them by loan, and it is evident that the four billions now provided for by taxation will not of hemselves sustain the greatly enarged budget to which we must imnegliately look forward.

We cannot in farmess wait until the end of the fiscal year is at hand to apprise our people of the taxes they must pay on their carnings of the present calendar year, whose accountings and expenditures will then be closed. We cannot get increased taxes unless the country knows what they of are to be and practices the necessary economy to make them available.

The summer is upon us in which labor and counsel are twice arduous and are constantly apt to be impaired by institude and fatigue. "We must meet it without self-ishness or fear of consequences. Politics is adjourned. The elections will go to those who think least of it; to those who go to the constituencies without explanations or excuses, with a plain record of duty faithfuily and disinterestedly performed. I, for one, am always confident that the people of this country will give a just verdict upon the service of the men who act for them when the facts are such that no man can diaguise or conceal them. There is no danger of deceit now.

"An intense and pitiless light beats upon every man and every action in this tragic plot of war that is now upon the stage. If lobbyists hurry to Washington to attempt to turn what you do in the matter of taxation to their protection or advantage, the light will beat also on them. There is abundant fuel for the light in the records of the Treasury with regard to profits of every sort.

"The profiteering that cannot be got at by the restraints of conscience and love of country can be got at by taxation. There is such profiteering now and the information with regard to it is available and indisputable."

I am advising you to act upon this matter of faxation now, gentlemen, not because I do not know that you can see and interpret the facts and the duty they impose just as well and with as clear a perception of the ob-

The Easiest Way To End Dandruff

There is one sure way that never tails to remove dandruff completely and that is to dissolve it. This de-stroys it entirely. To do this, just get about four ounces of plain, or-dinary liquid arvon: apply it at right when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will complete-ly dissolve and entirely destroy every single sign and trace of it, no mutter how much dandruff you may have.
